By signing this release form, I acknowledge that Air Belgium has informed me of the risk of air travel for my dog/cat.

I understand that brachycephalic animals have a significant risk of mortality during transportation on board of an aircraft due to respiratory distress, injury or sickness as a consequence of their breathing difficulty.

I, as owner of the animal, fully discharge Air Belgium and its agents, and I ensure that, if the animal suffers from this condition during the flight and/or this leads to injury or mortality of the animal, I renounce to any claim. Except if I demonstrate that the injury or mortality has another origin for which Air Belgium could be liable.

Undersigned,
