

Request for Transport of Dangerous Goods Form Passengers & Crew

G/STN-F035

Revision: 00

Date: 03/06/2019

If you plan on travelling with personal articles, devices or substances which are classed as Dangerous Goods for transport by air, it is necessary in some instances to obtain prior approval from the air carrier. Please take the time to complete this form to describe the goods in question. The request for transport shall be sent to Air Belgium dg@airbelgium.com no later than 48 hours before the actual departure time of your flight

Kindly provide us as much information as possible so that we may evaluate your request and proceed in the most efficient manner to provide you with an answer (either positive or negative) .

PASSENGER INFORMATION

Name of passenger			
Travel Date		Flight Number	
From (Point of origin)		To (Destination)	
Telephone of passenger		E-mail of passenger	

From the list of items below; kindly indicate the category(ies) of goods which you wish to transport by ticking the box in the centre column. Please indicate the quantity of goods and the power rating if it concerns a lithium battery in the right hand column.

Description	Request to transport	Power Rating or grams / Quantity
AMMUNITION (quantity to be expressed in Kg and number of packages)		
Cartridges for small calibre weapons (UN0012, UN0014)	<input type="checkbox"/>

N.B. Please go to page 2 of this form to provide more specific details

Request for Transport of Dangerous Goods Form Passengers & Crew

G/STN-F035

Revision: 00

Date: 03/06/2019

Please provide here below any further information which may assist Air Belgium in evaluating your request. For example; please indicate whether it concerns a new item which is still in its original packaging or not, the means by which you will prepare or package the item for transport etc.

For lithium battery powered devices, if you are unable to find the power rating, or content in lithium metal, it can be of great assistance that you provide the details of the make, model or name of the constructor.
