- **Portable Electronic Devices (PED's)** such as a tablet or laptop **should be carried in the hand baggage** as they contain lithium batteries which pose a fire risk.

Portable Electronic Devices (PEDs) cannot be transported in the hold **with some exceptions**. If your device is exceptionally transported in the hold, **please make sure that it is completely switched off & placed in an individual protective case.**

* It is strictly forbidden to carry extra back-up batteries of electronic devices in checked baggage, it is necessary to carry them in case or package on carry-on baggage. Lithium-ion batteries up to 100Wh can be carried in the cabin and in checked baggage if they are inside a device. A maximum of 2 spare batteries with a capacity between 100Wh and 160Wh can be carried only in a carry-on if they are in their package. They can not be carried in checked baggage. Absolutely no batteries with a capacity over 160Wh can be carried.

Please note that you need Air Belgium's written approval to carry those substances:
